

### **Our Mobile Planet: United Arab Emirates**

Understanding the Mobile Consumer

May 2012

### **Executive Summary**

**Smartphones have become an indispensable part of our daily lives.** Smartphone penetration is currently at 61% of the population and these smartphone owners are becoming increasingly reliant on their devices. 71% access the Internet every day on their smartphone and most never leave home without it. **Implication:** Businesses that make mobile a central part of their strategy will benefit from the opportunity to engage the new constantly connected consumer.

**Smartphones have transformed consumer behavior.** Mobile search, video, app usage, and social networking are prolific. Smartphone users are multi-tasking their media with 86% using their phone while doing other things such as watching TV (52%). **Implication:** Extending advertising strategies to include mobile and developing integrated cross-media campaigns can more effectively reach today's consumers.

**Smartphones help users navigate the world.** Appearing on smartphones is critical for local businesses. 93% of smartphone users look for local information on their phone and 92% take action a result, such as making a purchase or contacting the business. **Implication:** Ensuring that clickable phone numbers appear in local results and leveraging location based services on mobile make it easy for consumers to connect directly with businesses.

**Smartphones have changed the way consumers shop.** Smartphones are critical shopping tools with 84% having researched a product or service on their device. Smartphone research influences buyer decisions and purchases across channels. 39% of smartphone users have made a purchase on their phone. **Implication:** Having a mobile optimized site is critical and a cross-channel strategy is needed to engage consumers across the multiple paths to purchase.

**Smartphones help advertisers connect with consumers**. Mobile ads are noticed by 93% of smartphone users. Smartphones are also a critical component of traditional advertising as 78% have performed a search on their smartphone after seeing an offline ad. **Implication**: Making mobile ads a part of an integrated marketing strategy can drive greater consumer engagement.

The First Page of Mobile Search Results is Key

52%

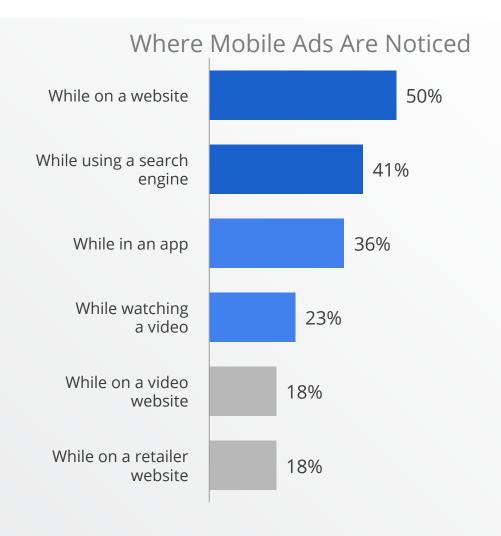

only look at the **first page of results** when
conducting a search on
their smartphone

### **Mobile Ads Make an Impression**

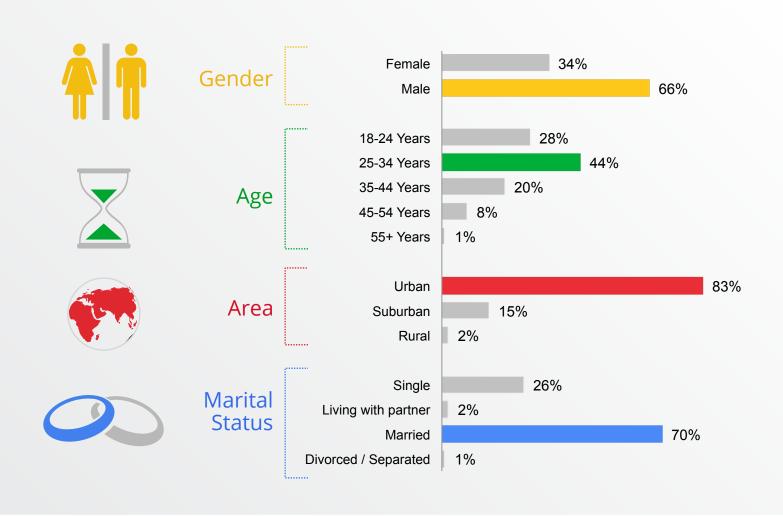

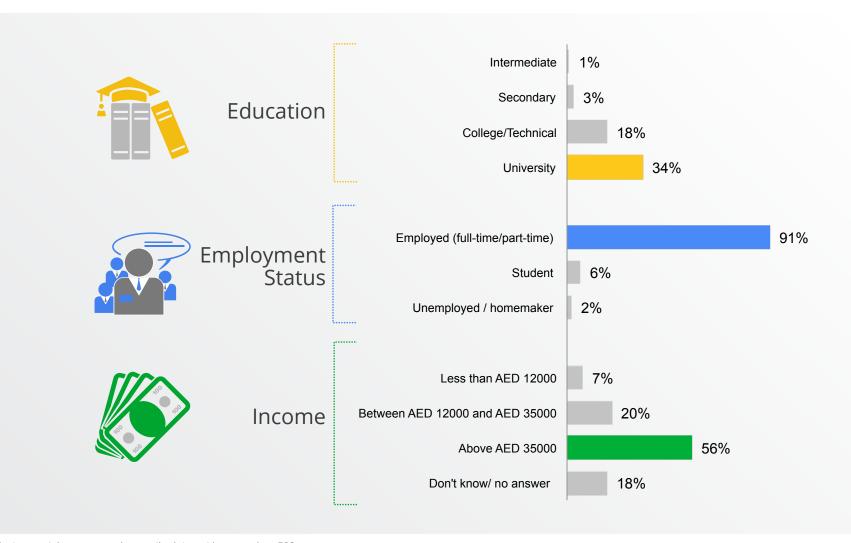

### **Research Methodology**

- In partnership with Ipsos MediaCT, we interviewed a total of 500 UAE online adults (18-64 years of age) who identified themselves as using a smartphone to access the Internet
- The distribution is according to a national representative CATI Study
- A smartphone is defined as "a mobile phone offering advanced capabilities, often with PC-like functionality or ability to download apps"
- Respondents were asked a variety of questions around device usage, mobile search, video, social, web and commerce behavior and mobile advertising
- Interviews were conducted in Q1 2012

### **Demographics**

### **Demographics**

employment status? D8. Which of these ranges comes closest to the total (annual) income of your household

before anything is deducted for tax National Insurance (Social security) pension schemes etc.?
