

Connect with consumers through AI-powered conversational marketing

Ali Gwin

Senior Manager, Product Marketing
IBM Watson Advertising

Monica Fogg

Watson Ads Product Director
IBM Watson Advertising

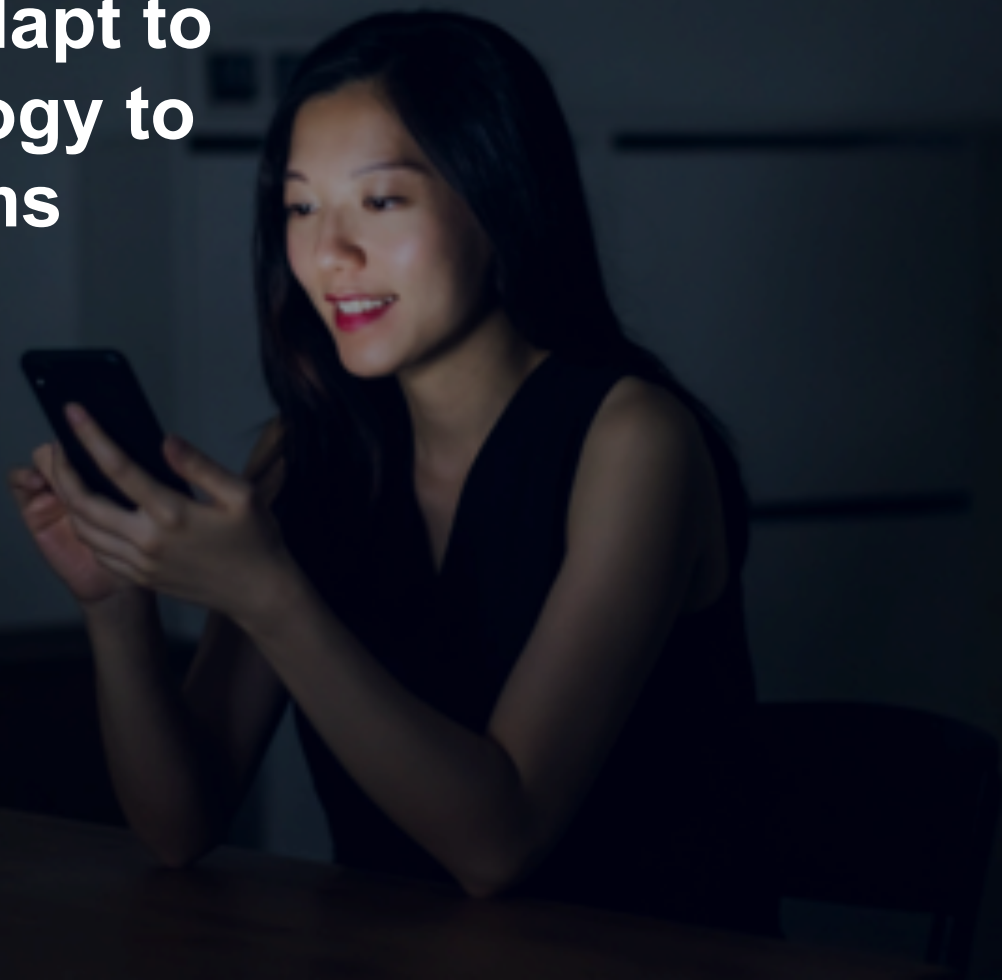

Marketers' understanding of consumer behavior has been disrupted

Consumers want to be heard

**Brands need to
figure out a new way
of listening and
learning**

**Marketers must adapt to
emerging technology to
solve new problems**

A person's hands are shown typing on a laptop keyboard. The laptop screen displays a chat interface with a search bar, a list of contacts, and a chat window. The background is a dark, textured surface.

Conversational marketing is a method that engages consumers in dialogue-driven, personalized experiences at a 1:1 level

Benefits of Conversational Marketing

- **Showcase brand empathy and voice**
- Deepen consumer engagement, confidence & loyalty
- Quantify impact with consumer feedback
- Evaluate messaging resonance
- Improve user satisfaction

Getting Started

What problem are you trying to solve for your business?

What do you want to communicate to your consumers?

What content do you have to leverage?

What are you hoping to learn from your consumers?

**Listen to your
customers and let your
brand's voice be heard**

Thank you
