MMA PURPOSE

WHO: The People We Serve

Prime Audience: *Chief Marketers*

By helping Marketers do Mobile better, everyone wins. MMA membership represents Marketers, Agency, Media and Technology Enablers from across the globe.

WHY: Our Reason for Being

Mission: To accelerate the transformation and innovation of marketing through mobile, driving business growth with closer and stronger consumer engagement.

WHAT: Our Strategic Priorities

Cultivating Inspiration

Aimed at the Chief Marketer; guiding best practices and driving innovation

Building Capability for Success

Fostering know-how and confidence within the Chief Marketer's organization

Demonstrating Measurement and Impact

Proving the effectiveness and impact of mobile through research providing tangible ROI measurement and other data

Advocacy

Working with partners and our members to protect the mobile marketing industry

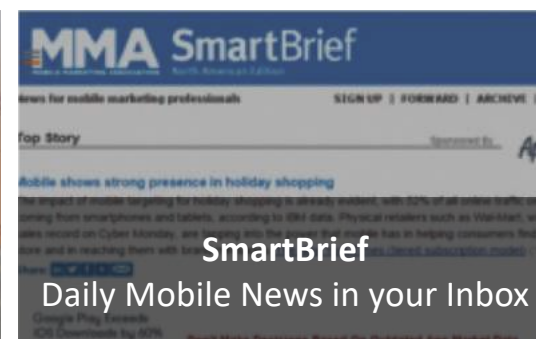

MMA IS 800+ MEMBERS STRONG GLOBALLY

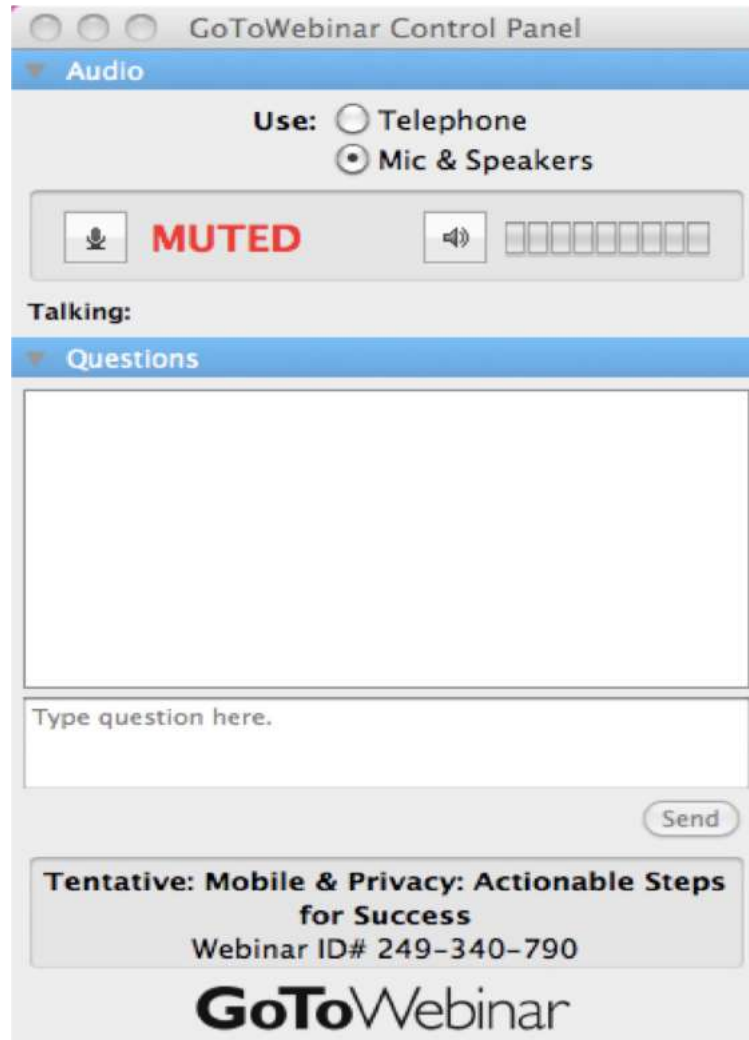

MARKETERS, AGENCIES, MEDIA SELLERS, TECHNOLOGY & OPERATORS

An aerial night view of a city skyline, likely Shanghai, featuring the Oriental Pearl Tower and other illuminated skyscrapers. A network of white lines connects various points across the city, suggesting a global or interconnected theme. The text "Welcome to the Cognitive Era" is overlaid on the left side of the image.

Faster, cheaper
processors

AI is more than a Buzzword

Influencing sales

3 in 4 organizations implementing AI **increase sales of products & services by >10%**

Engaging the customer

75% of organizations using AI **enhance customer satisfaction by >10%**

Boosting Operation

78% of organizations implementing AI **increase operational efficiency by >10%**

Generating Insights

79% of organizations implementing AI **generate new insights and better analysis**

AI has the power to bring key transformations to marketers

Productivity • Campaign Analytics • Digital Asset Management • Business Insights Across Data & Systems • Lead Scoring • Hyper-personalization of content • Dynamic landing pages • Delivering the right message on the right channel at the right time • Hyper-personalized product recommendations • Programmatic advertising & media buying • Predictive journeys • Hyper-personalization at scale • Customer segmentation/Lookalike modeling • Sentiment analysis

AI's Value

TO THE CMO:

Improved customer experience and financial results (increased yields as well as the ability to confidently identify marketing ROI)

TO THE SALES LEADER:

Achieving a 360 degree understanding of customers that can help predict customer needs and improve prospecting, lead strategy and customer service and experience

Source: IBM Institute for Business Value survey of 525 CMOs and 389 heads of sales from companies located in Africa, Asia Pacific, Europe, the Middle East, North America and South America.

A man in a blue checkered shirt is sitting at a desk, looking at a laptop. He has his hand to his chin in a thoughtful pose. The background is a blurred office setting. Overlaid on the image is a network diagram with white nodes and connecting lines. The overall color scheme is blue and teal.

IBM **Watson** Advertising™

Key challenges to AI aspirations

AMONG CMOs

Lack of technology needed to implement

Not enough of the required skills and expertise

Challenges with data governance and data sharing policies

AMONG SALES LEADERS

Lack of executive support

Organizational culture may not be a good fit

Mixed emotions over change AI will bring

Getting AI ready

1

Establish the technology and data underpinnings:

- Cloud capabilities: Get a cloud based solution to allow for modular & scalable data storage.
- Data capture and management: Ensure access to multiple types of meaningful data sources - both structured and unstructured (types of data: market data, social media data, real-time events data, mobile application data, still images/videos, customer-generated data, sensors and actuators)

2

Focus on People

Leadership: To derive meaning from the complexity of data that is housed across the enterprise, companies need C-level ownership of this vision and the strategies and empowerment to implement the necessary changes for their businesses.

3

Create a culture for cognitive solutions

- Collaboration: Data connections across enterprise must be established in order to fully reap benefits
- Innovation: New ideas will be sparked with the cross-pollination of information. Cultures must allow for an agile “learn fast and fail fast” approach

Are you **AI** ready?

How are you currently **harnessing the power** of structured and unstructured data to improve your customer experience?

Can you **access relevant insights** to make real-time marketing and sales decisions, or are you unable to respond quickly because you have to analyze multiple information sources?

To what extent are you **relying on data scientists** to surface actionable insights from your marketing and sales data, and how are you scaling their skills to meet your needs?

What steps are needed to **build a cognitive coalition** across your C-suite and line-of-business (LOB) executives so that your cognitive solution can be a catalyst for creativity and innovation?

If you could **enhance just one** marketing or sales capability with cognitive/AI, what would it be?

Welcome to the Cognitive Era.

Let's get started.
