# *The Smartphone Paradox*

Smartphones are over 40% of web traffic, yet only 1% of users convert

Mobile devices are increasing in usage every year, but retailers continue to struggle in driving *conversion*.

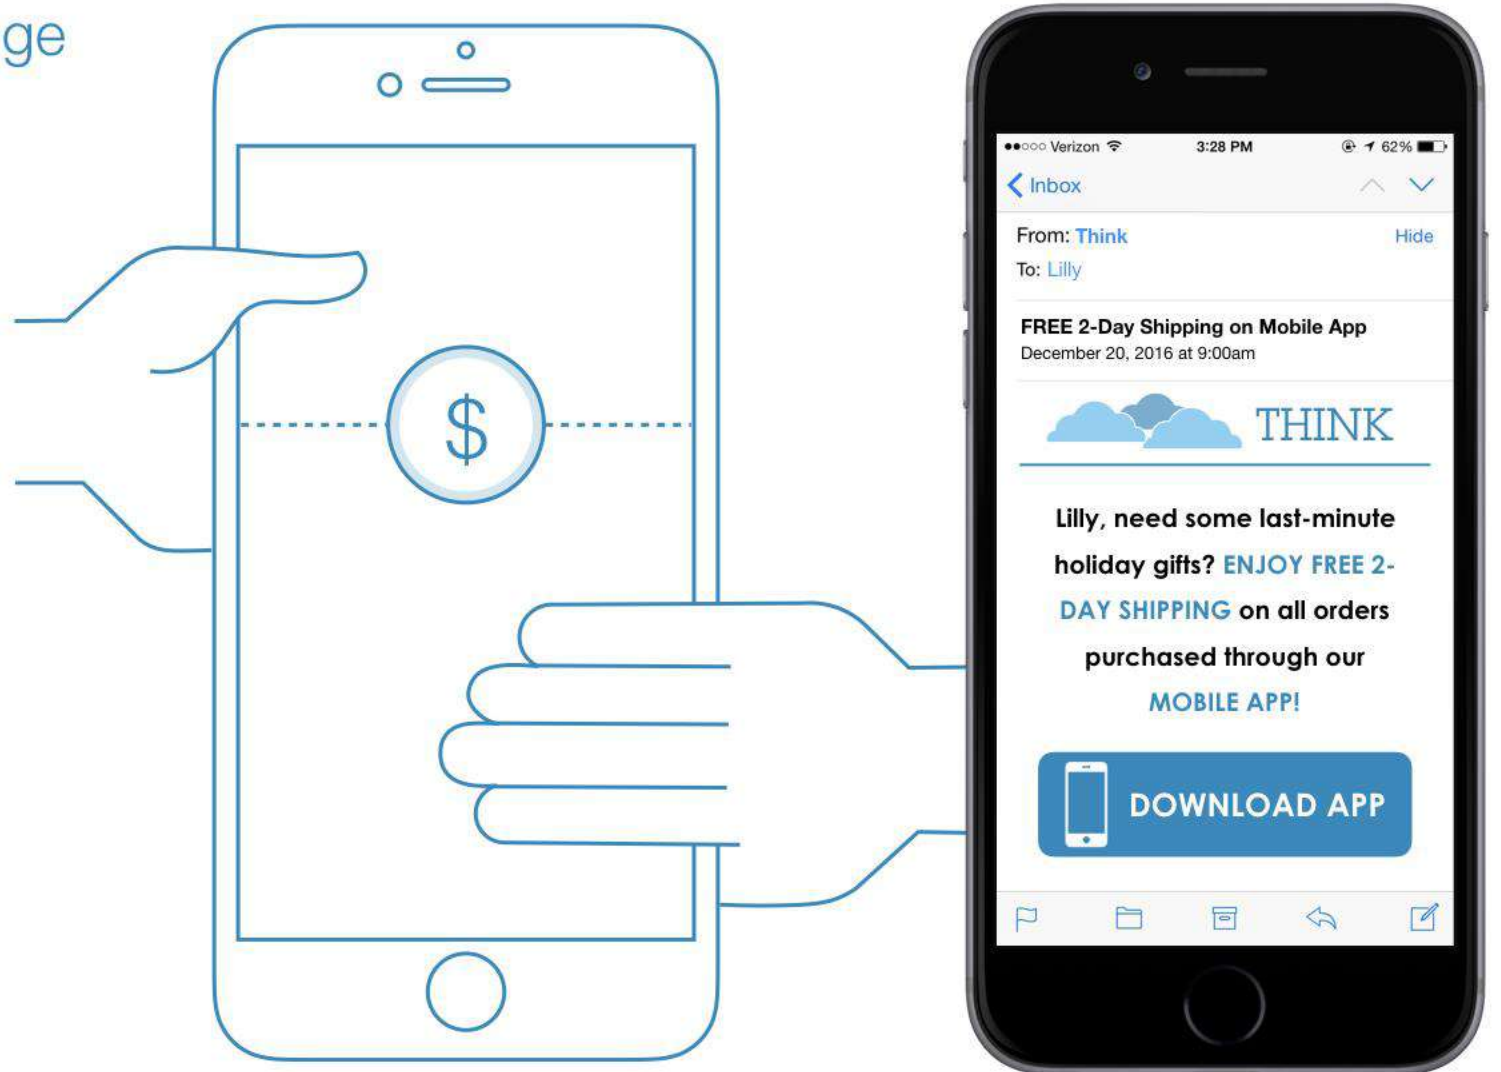

# *Mobile Holiday Tips*

## 1. Create a Real Value Exchange

There should be a reason why a customer downloads your app, subscribes to push notifications, or SMS alerts.

## 2. Use Location To Create More Relevancy

Real-time location data can be a powerful element in drive-to-store efforts. It can also be used for personalization, such as sending location-relevant store hours, for example.

## 2. Use Location To Create More Relevancy

In-store location using technology like Beacons can provide a digital companion experience to shoppers
